## 8th ICC International Commercial Mediation Competition

Christophe Imhoos (Esprit d'entente) · Thursday, February 7th, 2013

The 8th ICC International Commercial Mediation Competition begins tomorrow at the International Chamber of Commerce, in Paris.

During the Competition, university students will face complex, international business problems, which they attempt to resolve by mediation conducted under the ICC Amicable Dispute Resolution (ADR) Rules.

By participating in the Competition, students will get the unique opportunity to exercise their negotiating and problem-solving skills in mock sessions guided by some of the world's leading professional mediators who participate in the Competition as judges.

The ICC International Centre for ADR also organizes training sessions that take place during the Competition for participating professionals to share their experiences and best practices with other professionals and students.

Universally recognized for its important contribution to nurturing best practices in cross-border business mediation, the Competition enjoys the support of practitioners, academics, law firms and corporations worldwide.
